

Jake Gordon

Senior full-stack developer, Cambridge (UK)

Javascript, Vue.js, Node.js, UX, HTML5, CSS, Agile,
MongoDB, MySQL, Git, Linux, React, Socket.io, SVG, jQuery, PHP, RethinkDB, SEO, Photoshop.

Experience

Senior full-stack developer

Nov 2017–Oct 2018

Transitioned company from £350k+/year outsourced tech to a small in-house, agile, full-stack **Javascript** team, **saving £200k+/year** while improving speed, productivity and transparency. Included scraping and reverse-engineering, implementing CI/CD with **GitHub** and **Heroku**, redeveloping the front-end as an **SPA** with **Vue.js** and back-end with **Node.js** and **MongoDB**.

Javascript developer

May 2017–Sep 2017

Part-time while completing transition work for the new AllYearbooks owners (and before 6 weeks travel). Created a **Node.js/MongoDB** accounts system and worked on the core product - a **Javascript** graph visualisation library.

Founder, MD and lead full-stack developer

Mar 2007–Aug 2017

Initial idea to profitable market leader with ~10 person team, then equity sale. From a server-heavy LAMP stack, most recently created an **HTML5 <canvas>** designer, using 10k+ lines of custom **Javascript** on both client and server (**Node.js**). Usability and strong **UX** has always been key.

Previous roles x3

Jun 2001–Mar 2007

Woyano: agile, **TDD** dev, **LAMP** stack at a fast-paced Clerkenwell startup.
Post Carbon Institute: keen focus on **SEO**, created a custom **PHP** CMS.
Estate Angels: Co-founder and **CTO** for this top-10 UK property website.

Qualifications

2:1 degree in Sociology, Nottingham Uni.

A Levels: **Maths (A)**, Physics (B), Economics AS (A).

GCSEs: **A***x2, **A**x6, **B**x1.

Interests

Physically active: swimming, squash (uni team captain), scuba diving, tennis, trekking and wild camping.

Well travelled, sceptical thinker.
